Mr. Barrett referred to the persecutions and triats of the spiritualists throughout the country. He said the spiritualist had a right to demand the respect of the people, in so much as they command their own respect, and that the skies were brighten and with hope for the spread of spiritualism.

At the convening of the convention at 2

The report shows that there is an increased interest in spiritualism throughout
the country. He said that movements have
been made to crash it. Regarding the brogress of spiritualism, he said:
"Spiritualism, as a reform unovement, is
now in the third stage and is rapidly approaching the fourth. Our people have
organized none too soon to need it, and
the result will be when the fifth act opens
that priests, prelates and bishops of all denominations will rush forward crying out.
"We are spiritualists, and have given spiritualism to the world!"

Regarding politics. Mr. Barrett says:
"Many of us are citizens of the Unital States, and as such have the right of suffrage, excepting, of course, all intelligent women outside of Wyoming and Colorado, who are classed with 'diots, paupers, and Indians, not taxed.' These votes count and ought to be cast by us in a way to make them count.

"Many have become so disgusted with politics that we do not even go near the polis. A striking example of what the spiritualists can do if they try, is found in the defeat of Gov. Foraker, in 1883, in Ohio. I reconnected that this convention consider the matter and speak with no uncertain sound thereon."

The morning sessions of the convention will be free, but at the evening session an admittance fee of 25 cents will be charged.

Sessions in Foundry Church.

WELCOMED BY THE PASTOR

Many Local Clergymen Were Present and Spoke of the Work Being Prosecuted-Bible Society, Salvation Army, Christian Endeavor and Epworth League Represented.

The first annual convention of the National Gospel Mission Union, this morning at 9 o'clock began a three days' session in Foundry M. E. Church. About 200 delegates were present and others are expected to arrive during the day and evening.

Potted pains were placed upon the platform and a mammoth American flag was draped across the organ. George W. Wheeler conducted a devotional and praise service, at which music was furnished by the Silver Lake Quartet and a choir from the Central Union Mission. Mrs. A. L. Prindle, known to Christian workers as "Mother Prindle." led in prayer.

Maj. George A. Bilton, president of the organization, made a brief address, stating the objects of the association to be the prosecution of evangelical work among the masses and those who could not be reached through the usual avenues of religious teaching.

Br. Brown, pastor of Foundry Church, welcomed the delegates and said it was fitting that all Christians should go forth into the highways and hedges, following the example of Christ during the period of his personal ministry. He consadered it litting that the first meeting of the National Union should be held in the church where the preliminary stems were taken to establish the Central Union Mission.

BIBLE SOCIETY'S WORK.

Dr. A. W. Pitzer, president of the Washington City Bible Society, told of the great work accomplished by John Shackford, when, sixty years ago, he donated \$10,000 to aid in placing a copy of the Bible in every home on the habitable globe.

The society was organized in 1828 and is now 67 years old. During that time the city of Washington has been canyassed thirteen times and 126,000 tamiles have been visited. For twenty years, Dr. Pitzer has been president of the society and in that time 67,000 families have been visited. Besides paying all their own expenses and keeping out of debt, \$6,000 has been forwarded to the parent organization in New York.

At the same time Dr. Pitzer said the contributions to the society from the charch members of Washington had averaged less than two cents per head. The funds had been raised by donations, ranging all the way from \$100 to \$2,000.

Within the past four venrs the society has thoroughly canyassed this city and placed 12,000 Bibles in the hands of chidren between eight and sixteen years old. BIBLE SOCIETY'S WORK.

CITY ORPHAN ASYLUM.

Rev. John B. Sieman, president of the Washington City Orphan Asylum, located at the corner of Fourteenth and S streets, made a 15-minute address. He said this charity had foreight y years been maintained by private contributions, although it had been thought that Congressional aid might well be extended to it.

The number of inmates in the saylum has averaged 165 per year. Those having one parent living are not admitted unless peculiar circumstances under such a course airlisable.

The children are given a mental and physical education, calculated to qualify them for life. The manner in which they are provided with homes was described, and Dr. Sleman toki of the way in which religious exercises were conducted. Hunter made an excellent substitute, and said that whether the soldiers beat hass drams or wore distinctive uniforms the object in every instance was to beat the devil. Every instrance was to beat the devil. Every instrance to a square meal. He said it was not only the degraded they sought to save, but those of all classes and conditions who do not acknowledge Christ. During the past four months, Add. Hunter said, more thant 100 men and women in Waspington had been converted through the instrumentality of the Salvation Army, many failen women had been reclaimed and untold good had been accomplished.

Rev. D. W. Skellenger spoke in behalf of the Christian Endeaver Societies. He said these organizations depended altogether upon a spine which was equal to all requirements. It had been said that the obligation of the endeaverer was castiron. It is better still—it is steel.

The "I must" of the Christian Endeaver Society was the beginning of a religious life. Its members are not only opposed to gambling in the downtown reservis, but in the uptown parlors. They have no grand urizes, no booby prizes, and no favors. They are arrayed not only against the great evil of intemperance but its companion vice, the tobacco habit. They advocate not only a pure home life but pure politics.

EPWORTH AND ENDEAVOR.

The Endeavor Societies, Dr. Skeilinger said, joined hands with all Christian workers on the face of the globe in an endeavor to promote Christian work.

William Burdette Matthews spoke for the 3,000 senior and 1,000 jamor members of the Epworth Leogue in Washington. The strength, energy and brains of this young exement, he feit, constituted the very flower of the Methodist church. He told of the great work which is being accomplished by the society.

The third session of the Woman's Foreign Missionary Society was called to order at the Mount Vernon Church at 9:30 this morning. Nearly a hundred plekantes and interested friends were present.

Mrs. J. 8. Martin, of Staunton, Va., made the opening prayer. Miss Nina Wilson, of Baltimore, then read the minutes of the last meeting. Mrs. A. H. Strother, recording secretary of the Baltimore conference, gave a very able review of the work of the woman's missionary body since the last annual report.

the woman's missionary body since the last annual report.

This conference has now 73 auxiliaries and 1,654 members. It has added nine new auxiliaries and ninety-nine new members during the last twelve months. In the juvenile societies there are twenty-six different organizations, with a membership of 890. These figures show four new societies and 135 additional workers.

Mrs. Strother made a beautiful appeal for more enthusiasm and zeal among the members, dwelling on the fact that "a woman is the climax of God's creative energy," and that her noblest work is to go down into the darkness of heathen idolatry and crueity, among those who have no faith, no hope, no Christ love and bring them the light of the Gospel and lift them out of the usersadation of sin.

TTS MISSIONARY BAND. ITS MISSIONARY BAND.

There are 38 missionaries supported by this branch of the Woman's Society, of these, 15 are working in China, 14 in Mexico, 8 in Brazil and 1 in the Judian mission. They have under their personal supervision 12 boarding schools, 40 day schools, 1 hospital, 11 hible women, and a total number of 4,370 who receive from them the divine charity of having God's word taught among them.

Mrs. Elizabeth T. Moses, president of the Mount Vernon Auxiliary, of this city, introduced to the delegates Miss Cherry Moses and Miss Getrude Fowler, who are to not as pages during the rest of the session.

to act as pages during the rest of the session.

The treasurer's report showed that the society has a bank account of \$5,285, of which \$1,000 was contributed by the Little Workers, as the juveniles are termed. After the routine business had been transacted, the delegates read the reports of the different auxiliaries affiliated with the Ealthmore conference. Miss W. H. Bechler, the delegate and treasurer of the Mount Vernon branch, read an interesting account of local work. The society has sixty active members, line honorary, and seven life members. The officers are Mrs. Elizabeth T. Moses, president; Mrs. J. W. Cantre, vice president; Mrs. W. H. Bechler, treasurer; Miss E. Zimmerman, recording secretary, and Mrs. J. W. H. Robinson, corresponding secretary.

Work at the Mount Vernon during the past year has been very encouraging, and the treasurer's report showing \$2,700.11. proves a practical interest in its success. The invenie society has been most zealous and it has made an enviable record.

RODGERS FLOWER GARDEN.

and it has made an enviable record.

RODGERS FLOWER GARDEN.

In the report of the "Martha Rodgers Flower Garden," in Alexandria, Va., a mistake in regard to the amount contributed by the auxiliary had caused some lattle amoyance to its members. This auxiliary is apporting a little Mexican boy in the mission at Laredo, and last year it contributed \$135 for this purpose. In the minutes it was read but \$2.50, and Mrs. Strother took occasion to tell the delegates that the Baitimore conference is not a chartered institution, and therefore has no right to receive official bequests. That the bequests will have to go to the Tennessee conference, and that one should be taken to use the proper formula in order that the Baitimore conference may get proper credit for the work it has accomplished.

During the past year Mrs. Sewall, of Trinity Church, Baitimore, had bequeathed the society \$1.000, and having carried out the rules and by-lews of the institution, their society had received the money and appropriated it to the use intended, with out the sightest difficulty.

Mary A. Pugh, corresponding secretary of the Blacksburg auxiliary. Baitimore, told that her branch is young, but is doing very fairty. They hold monthly meetings, and have twenty-three members. The treasury has a surplus sum of \$17.50.

This afternoon, beginning at 4 o'clock, banoting for the election of the new officers, will begin. The late president, Mrs. Brown, of Muidheburg, Va., has resigned, and much interest is felt as to her probable successor. Mrs. Agnes Strother, of Baltimore, who so ably filled the position of corresponding secretary for five years, has also resigned.

The local election will also occur this fifternoon, but it is more than probable that afternoon, but it is more than probable that the old board will be re-elected.
